SOPHiA GENETICS and Hitachi Announce Collaboration to Advance Data-Driven Precision Medicine

A multi-year agreement to unlock the potential of multimodal health data

We just announced entering into a long-term agreement with Hitachi to bring clinical, genomic and real-world insights to healthcare providers and biopharmaceutical companies with the goal of democratizing data-driven medicine globally.

“We are committed to improving patient outcomes through data-driven medicine and we are excited to collaborate with Hitachi, a global leader in real-world evidence and multimodal clinical decision support, who shares these values,” said Jurgi Camblong, our CEO and Founder.

ACMG

13 - 16 APR 2021
Virtual meeting

Join our Exclusive Talk at ACMG!

Meet with us, chat with our experts, and live the platform experience!

Our team is (virtually) attending the ACMG Annual Meeting. Registered attendees will have the chance to chat with our experts and schedule a demo of the universal SOPHiA DDM platform.

On Thursday, April 15th at 3pm EST, our experts will discuss our on demand talk “A streamlined workflow for CNVs analysis on whole-exome sequencing” with a live Q&A for Twist Bioscience. Don't miss it!

Dive Deep into Genomic Variants

Simplify complex genomic variants exploration with Alamut Visual Plus

Earlier this month we launched Alamut Visual Plus – a comprehensive genome browser that simplifies complex genomic variants exploration. Alamut Visual Plus provides:

- Broad range of curated genomic and literature data sources
- Multiple bioinformatics files visualization
- High quality splicing and missense predictors
- Private data management
- Customizable reporting

With its efficient workflows and an intuitive interface, Alamut Visual Plus offers researchers a smooth experience while saving researchers' time during laborious variant analyses.
